Instructions

- 1** Print out the template and carefully cut around the outside of the template.
- 2** Fold in half along both diagonals.
- 3** Fold the first corner into the centre (be as accurate as you can).
- 4** Continue folding the other three corners into the centre.
- 5** Flip the paper over. Fold the first corner into the centre.
- 6** Continue with folding the other three corners into the centre.
- 7** Fold the chatterbox in half vertically.
- 8** Fold the chatterbox in half horizontally.
- 9** The four corners should naturally start to pop out – this is where you put your thumbs and index fingers.
- 10** Ta-dah! Your chatterbox is ready!
